

OSIVAX is a biotechnology company that uses its oligoDOM® technology platform to develop innovative vaccines. OSIVAX's main project is a universal influenza vaccine that aims to revolutionize the prevention of seasonal influenza, currently in Phase 2a. OSIVAX is using this same technology to develop a broad-spectrum vaccine against SARS-COV-2, its variants or a new coronavirus pandemic.

As part of the development of our Investor Relations in Europe and worldwide, we are looking for a:

Junior Corporate Communication & IR Manager (F/M)

Based in Lyon, France

Permanent position

YOUR ROLE:

The Investor Relations and Corporate Communication Manager will be responsible for ensuring the company is appropriately and strategically positioned with analysts, investors, media, and all other relevant stakeholders. This role will support Top Management in developing the overall investor relations and corporate communications strategy and will be responsible for its execution. This position will report directly to the Chief Business Development Officer, within the Business Development and Strategy team based in Lyon (France) with significant exposure to senior leadership. This is an opportunity for the right individual to join a growing and dynamic organization. Come join an experienced and highly motivated team!

YOUR TASKS & RESPONSABILITIES:

- Work with Chief Business Development Officer and the Company Leadership team to develop and execute a comprehensive, best-in-class IR and corporate communication program, that aligns with company strategy and leverages a strong understanding of the investment, biotech and pharmaceutical communities to enhance the perception and visibility of Osivax
- Coordinate and monitor interactions and communications with existing and potential investors, sell-side analysts, media, and all other relevant stakeholders
- Constantly informs CEO and Top Management team on the status of relationships with investors and potential ways of improving these relationships
- Gather real-time insights and monitor business climate, analyse competitors' corporate activities with investors and media, identify networking and other opportunities to build and create new partnerships with potential investors
- Help organize, plan, attend and track road shows, presentations, speaking engagements and business conferences
- Assist in development of strategic communications support directed at the investment and media community related to corporate and product milestones, including press releases, corporate presentation and other relevant communication supports

- Maintain, upgrade, and update the website and social media contents (Linkedin, Twitter)
- Manage third party vendors and resources

YOUR BACKGROUND & PROFILE:

- Degree or higher in Life Science based subject
- Postgraduate in Business, Finance, Marketing, Corporate Communication or related field required
- 2 to 3 years of experience of IR in biotech/pharma industry required
- Experience interacting with investment bankers, institutional investors, and research analysts
- Deep interpersonal skills
- Excellent written and verbal communication skills (French and English), as well as the ability to draft engaging and impactful messages for inspiring
- Strong planning, organizational, time and project management skills to prioritize and complete multiple assignments and coordinate workflow
- Ability to handle confidential information
- Advanced proficiency in MS Word, Excel, PowerPoint, and Outlook
- Must be able to anticipate needs, be proactive
- Must be able to perform in a high-pressure environment, and be able to meet tight deadlines
