Osivax has offices in France (Headquarters in Lyon) and Belgium (Affiliate in Liège). It is a growing company with over 40 employees. Our offices in Liège host about 10 employees including Clinical Operations and a Quality Control laboratory.

As part of the development of our clinical trials in Europe and worldwide, we are looking for a:

## **Trainee in Clinical Quality Assurance – (M/F)**

**6-month starting from January 2025 in Lyon, France**

### **POSITION OVERVIEW:**

Reporting to the Head of Clinical Quality Assurance, you will join and support the Clinical Development team in the deployment of clinical trials at both local and international levels. You will contribute to the success of innovative vaccine research from initiation to closure.

The quality functions are divided according to the pharmaceuticals referentials (GLP, GMP, GDP) and clinical development referential (GCP, GVP) that Osivax has to follow.

### **YOUR TASKS & RESPONSABILITIES:**

- Collaborate with the Quality Team in order to suggest and implement a corporate documentation pyramid.
- Participate in the follow up of quality aspects of a clinical trial (Follow up issues, perform investigation site visits, ...).
- Contribute to communicate on clinical quality activities and achievements to the other Osivax' services (GCP sensibilization, training to SOPs, KPI ...)
- Assist the Head of Clinical Quality Assurance in their tasks.

### **YOUR BACKGROUND & PROFILE:**

- Currently pursuing a Master's degree in Quality Assurance applied to clinical or drugs development.
- Organized, methodical, and rigorous.
- Curious, capable of researching, analyzing, and synthesizing information.
- Proactive and able to anticipate needs and propose solutions.
- Enjoy working in multidisciplinary and international environment.
- Fluent in English, Proficient in Microsoft Office (Word, Excel, PowerPoint).
